This one is a nice idea, I will implement it for the next version. :)

**#2 - 03/29/2012 01:01 PM - Christian Hesse**

Should be possible to give this option more than once, so 'dfc -t ext4 -t btrfs' gives all filesystems that are ext4 or btrfs. (Other syntax is welcome, so I am fine with 'dfc -t ext4,btrfs' as well.)

I already implemented your feature request before seeing your comment. The filter accepts only one filesystem type for the moment. However, your idea is very nice. Can you open a new feature request for this?

**#5 - 03/29/2012 09:49 PM - Robin Hahling**

I opened a feature request for this one. See [#59](#).
